LEGAL ADVERTISING.

THURSDAY, MAY 18, 1899.

OUR PER CAPITA.

Since 1888 the money in circulation in the United States has increased 80 per cent. This is due to other than political causes, for there have been two Democratic and two Republican Administrations. In twenty-four years the increase has been more than 60 per cent. A table just prepared by the Treasury Bureau of Statistics shows that on July 1, 1879, the amount in circulation was \$18,831,793, and on July 1, 1889, \$1,879,964,779, showing an increase for the ten years to have been \$561,829,977, or over \$5,000,000 per year.

In the last decade it has increased from \$1,879,964,779 to \$1,927,846,942, the amount now in circulation. This shows an increase of \$47,882,172, or about \$15,000,000 less than the gain during the preceding ten years.

The per capita circulation on April 1, 1899, according to the official statement of the Treasury Department, was \$25.45. In the second year of Cleveland's second administration it was \$24.28. But it has fluctuated between \$25 and \$22 for over fifteen years, according to the caprice of bankers, showing a mean of about \$22.75;

One thing that swells the per capita circulation this year is that the bankers are circulating the gold they used to hoard. Three years ago the gold in circulation in this country amounted to \$456,128,483. This year it is \$694,855,942. But with all this showing, the fact still remains that comparatively few men control the circulation, and hundreds of thousands of them have not the amounts with which they are credited by the tables.

WHAT A TRILLION IS.

Under our Republican (party) government, a billionaire, if not an actual fact, is not an impossibility, but, thanks to the inventor of arithmetic, a trillionaire is. People often talk of a trillion as a possible number. The fact is, not a trillion of seconds has elapsed since the creation of Adam; nor will that number have elapsed until February 1st in the year of our Lord 26825; for in a trillion of seconds there are 31,687 years, 32 days, 1 hour, 46 minutes and 40 seconds.

By the same figuring a man would have to make a dollar a second for more than 25825 years before he could be classed as a trillionaire. As the Republican party, with its trust protection system, is not likely to last that length of time, the chances are that this terrestrial sphere will never be honored by the presence of an "aile" with a prefix of thirteen numerals.

The United States Department of Agriculture is about to experiment with the grasses of Russia and Siberia on the arid plains of the west. The introduction of these grasses is soon to commence, and Nevada will no doubt secure her share of them.

In this connection the Silver State says that the introduction of new grasses should be made with intelligence and caution, or unfortunate results are likely to follow, as was the case with the Bermuda grass when introduced in certain portions of California. It grew so large and coarse in that soil that it was useless for feed or fodder, and after it had taken root it was difficult to dislodge it. Of the foreign grasses, alfalfa is the best that has yet been tested, and will doubtless remain in the lead in Nevada for many years to come. Experiments should be made at first upon a small scale and no large tracts seeded until the quality and yield have been thoroughly tested.

This Gazette says it doesn't think that a man who draws a prize in a lottery or strikes a paying ore body, need necessarily thank Mr. McKinley for it. Excuse us, neighbor. We were led in to the mistake by your claiming credit for the gentleman for things equally absurd.

When we trade the Philippines to John Bull for his West Indies, isn't we persuade him to take Samoa to boot?—Salt Lake Herald.

Why not also throw in Alger and Hanna? They are good material—to boot.

It appears that Spain only gave Uncle Sam a quit-claim deed to the Philippines, for the \$20,000,000 she received, and that is the reason why proceedings are going on to quiet title.

If President McKinley does not get rid of Alger, it would be advisable, if he wishes to preserve it, to have his second-term boom "embalmed."

Ex-Secretary Wm. C. Whitney has had torpedoes planted around the grave of his wife. If this system of grave decorations becomes popular, Memorial Day will pass into oblivion.

There is evidently need of a law in California prohibiting State prison convicts from carrying concealed weapons while employed in their professional duties.

HABITATIONS.

Examinations begin Friday. The spring semester closes to-day.

John Amley, hardware merchant of Elko, is at the Clarondon.

On the evening of the first the commencement ball will be held.

The Record says that the Pioche Messenger is about to move to Delamar.

The Lyon County Times advocates an A. O. U. W. picnic for this summer.

Night hundred head of sheep were sold recently in Mason Valley for \$10 per head.

O. S. Newhall of the Forestry Department was a passenger on the west-bound overland yesterday.

A special train is going out daily over the N.-C.-O., carrying construction material for the extension of the road.

The ladies of the University Faculty have arranged for a delightful entertainment at the Gymnasium Friday evening.

Shipment of wool from the northern country has begun. Two or three carloads are arriving daily over the N.-C.-O.

Mrs. John Orr will erect a handsome residence at the corner of Third and Ralston streets. The work was begun yesterday.

The shearing crowd came in from Plumas Junction yesterday. The fleeces were reported heavy and A. No. 1 in quality.

R. L. Laws of Hawthorne, A. M. Avery of Carson, Judge C. E. Mack of Virginia and Miss Mary R. Clark of Reno were passengers to San Francisco yesterday.

During the month of April freight receipts at the Reno Central Pacific office were \$1,900 in excess of those of the same month last year. The figures are indicative of growing prosperity.

The Reno Land, Water and Light Company's wagon, or rather the horse attached to it, created some excitement on Virginia street yesterday by running away. Broken shaft and torn harness constituted the damage.

Do not forget the May Festival at the "Gym." Friday evening. The ladies of the Faculty have prepared a charming reception to all friends of the University. Proceeds go to the "Gymnasium Fund."

The engagement is announced of Miss Alice P. Findley of San Francisco daughter of the late Thomas Findley at one time Surveyor of Nevada, and Lieutenant Robert B. Baird of the United States steamship McArthur.

For Over Fifty Years.
Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers there is no mistake about it. It cures Diarrhoea regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces Inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25 cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Indian School Burned.

At an early hour yesterday morning the Indian School on the Pyramid Lake Pinto Reservation, situated about ten miles from Wadsworth at the head of Pyramid Lake, was burned. There were nearly one hundred pupils and teachers in the buildings but all escaped. The school had been in operation about 20 years and was finely equipped. The buildings were two stories high and had been erected by the Government at great expense.

A Genuine Mining Boom.

Nine mines were bonded in one day last week at Golconda, Nevada. A genuine mining boom is on in the eastern part of the State, and mining experts and capitalists are said to be as thick as fleas. The smelters of Golconda are running night and day, and the narrow gauge is sending 250 tons of ore from the mine daily.

Statutes of 1899.

The JOURNAL acknowledges the receipt of the Statute of Nevada for the year 1899 from Secretary of State Eugene Howell. They are gotten up in good style, substantial and neat, and are creditable to the State Printing Office. We wish we could say the same in regard to some of the legislative work contained therein.

Needed in Nevada.

The Independent is pleased to learn that Dr. Stubbs, President of the State University, is not a candidate for the Presidency of the University of California. Nevada is in need of his ability and energy at the head of her highest educational institution.—Elko Independent.

Norman Preacher.

Elder Jas. A. Eldridge of Salt Lake City, a missionary of the Mormon church, arrived in Reno Wednesday accompanied by his family. He will hold services in this city during the summer.

Proposed Partition.

The aggressions on foot in China by Russia and England is demanding the attention of the United States. The proposed division of that ancient empire by the nations of Europe, led by Russia in the work of partition, requires observation by our government, and, if need be, such positive action as will prevent sovereignty over any portion of that country by either Russia or England. The United States is not in a position to allow a partition of China without a full understanding of terms included in the intended work of division, and should it be that the terms will in any way interfere with our treaty rights, a protest that will be heard around the world should be made by our government. Russia and England will not care to ruffle the feathers of the eagle too much in the matter of division. A steal is not such a clean thing as to give such assurance on the part of those engaged in it that they will become aggressors against those who are honestly looking on for the protection of individual rights. The action of Russia has gone so far in the direction of an intended appropriation of a large portion of Chinese territory that the United States government is not inclined to allow it to proceed further without a full knowledge of the purposes of that country. Things will in time, without other explanation, develop in a way that will show the people of the United States the necessity there is for our government to obtain as speedily as possible a permanent foothold in the Orient for the protection of our trade on the Pacific and in the Orient, and for the protection of our western coast against the future aggressiveness of European nations.

The Monroe doctrine is becoming each day as events go more pronounced as a factor in our national policy.

Rio Southern Camps.

H. W. Newly, United States Deputy Mineral Surveyor, has returned from a business trip to the Yellow Pine district, in Lincoln county. This district is in the southern corner of the State. It contains two flourishing mining camps.

In the Good Spring camp the Mineral Union, limited, a German company, is putting in a plant for leaching copper. This company employs 150 men. The Good Spring camp is near the old and well known Keystone mine, which is now under bond to a New York syndicate.

The Searchlight camp, in White Pine district, is twelve miles from the Colorado river. It contains six mines, recently sold to Boston people. They will shortly erect a plant for treating their ores on the Colorado river. Three hundred men are employed in Searchlight. It is a good camp.

Recent surveys for a railroad line between Milford and Mojave pass through the camp. Mr. Newly will shortly return to White Pine on official business.

Fire at Virginia.

A fire started about 10 o'clock yesterday forenoon in a three-story frame building on C street, Virginia City, occupied by M. Misovich and James Munro as a candy store and E. Connally, a tailor. The building was

burned and a brick building owned by Richard Jennings on B street was destroyed. A tenement building owned by James Douglas was partly destroyed and a barber's shop and the Delta saloon slightly damaged. The wind was blowing a gale, and for a time the entire city was threatened with destruction. The store-keepers' stocks were ruined by water. The loss is estimated at about \$5,000.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can take it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, head ache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50¢ a bottle at S. J. Hodgkinson's Drug Store.

In the last two years \$86,000 has been paid to beneficiaries of deceased members of the A. O. U. W. in Nevada. The present membership within the State is nearly 1,100.

Distinguished Ladies Coming.

We have positive assurance that two distinguished women from the East will visit Reno. Mrs. Lillian Stephens, President of the National W. O. T. U. a cultured lady and gifted speaker, and Miss Anna Gordon, a prominent and well known worker, will be in Reno on next Saturday and Sunday.

The rare treat of having these honored women, with their world-wide reputation, will undoubtedly bespeak for them overflowing audiences. They will speak on Sunday, May 21st, in the Opera House at 8 p.m. Mrs. Stephens will also speak in the Methodist Church in the evening and Miss Anna Gordon in the Presbyterian Church.

On Saturday, from 1 to 8 p.m., these ladies will hold conference with the workers and all other persons interested; after 3 o'clock there will be a public reception. The Saturday meeting will be in the Methodist Church.

Announcement.

I have just received a complete line of working and dress shirts of the latest patterns and styles, which I will sell at carload prices. I wish to call particular attention to a working shirt I am handling. It is undoubtedly the best working shirt that was ever sold on the Coast for the money. Call and examine the same.

I have all the latest patterns in golf and negligee shirts, in silks and madras cloths.

I am pleased to announce that I have secured the agency of the Wheeler overall, famous on this Coast as being the best fitting and most durable overall on the market. It is riveted, triple-sewed and made of the heaviest and best denim. Try a pair and be convinced.

Free employment office in connection with the store.

ALFRED NELSON.

Good Authority.

At a feast of the pluteates held at the baronial mansion of C. P. Huntington in San Francisco, Uncle Collis, in an after-dinner speech full of wise suggestions, alludes to 1893 as the last year of the nineteenth century. Uncle Collis is well up in questions relating to long and short hauls, rebates and competitive points, but on chronology is a little short. The twentieth century will begin at midnight, 1901.—Carson News.

The political proprietor of Nevada is doubtless a constant reader of our esteemed evening contemporary, which has devoted about a farlong of space to prove that ninety-nine years constitute a century.

About Freight Rates.

A JOURNAL reporter was informed yesterday by Freight Agent H. L. Field that Reno had terminal rates on beer, and packing house products in carload lots. For corn there is a special rate from Nebraska points of 60 cents in carload lots. The rates on wheat are practically terminal. For cattle and sheep special rates are granted.

Perfect Uniformity.

The Gazette complains that the JOURNAL's editorial and local pages don't jibe. We can find no such fault with the pages of our neighbor. There is a dreary uniformity in all of them that renders it difficult for a person, even an expert, to distinguish 'tother from whicht.

Fancy Dress Ball.

I will give a fancy dress ball to my pupils at the hall in the Investment building on the evening of the 27th inst. None but members of the dancing class will occupy the floor. Admission for spectators 25 cents.
